

## **Our Sustainability Policy**

### **Introduction**

Cold Chain Technologies, LLC. (“CCT” or the “Company”) is a global leader in the development and delivery of cost-effective insulated thermal packaging solutions that protect the integrity of temperature-sensitive products. With five decades of innovation in the cold chain industry, we understand its logistics and applications, its demands, and its extremes.

### **Company Vision**

Our vision is to be the mission-critical partner that life science organizations rely on to protect their temperature-sensitive products throughout the global supply chain. We will pursue innovation and excellence in all aspects of our business.

As the global leader in reusable and single-use sustainable thermal packaging shippers for the life science industry, we are committed to the safe transport of life-saving medications and environmental leadership.

### **CCT's Sustainability Initiative**

Positively impact the health of our communities and our planet through the safe and sustainable transport of medications.

- Generate social and environmental change to benefit the planet, our partners, and global health.
- Reduce 100M pounds (lb.) of landfill waste by 2025.
- Decarbonize our products and services based on the circular economy.

CCT recognizes environmental protection as one of our guiding principles and a key component of sound business performance. We are committed to providing a quality thermal packaging solution and service in a manner that ensures a safe and healthy workplace for our employees and minimizes our impact on the environment. We will operate in compliance with relevant federal, provincial, and municipal environmental legislations globally, and we will strive to use environmental best practices in all we do.

## We will:

- ✔ **Incorporate** environmental concerns and impacts into all of our decision-making and activities.
- ✔ **Promote** environmental awareness among our employees and encourage them to work in an environmentally responsible manner.
- ✔ **Train, educate, and inform** our employees about environmental issues that may affect their work.
- ✔ **Reduce waste** by initiating recycling programs within the office – including the recycling of paper, cardboard, beverage containers, plastic containers, and other materials that are accepted by a recycling provider.
- ✔ **Purchase** environmentally responsible products that have been selected based on criteria including:  
toxicity, durability, use of recycled or re-furbished materials, reduced energy and/or water consumption, reduced packaging, and ability to be recycled, refilled or re-furbished at the end of its useful life.
- ✔ **Promote** efficient use of resources throughout our facility including water and energy.
- ✔ **Avoid** unnecessary use of hazardous materials and seek alternatives whenever feasible.
- ✔ **Regularly communicate** our environmental program to our clients, customers, and the public and encourage their support.
- ✔ **Strive** to continually improve our environmental performance by periodically reviewing our environmental policy in planning our current and future activities; and
- ✔ **Investigate** and initiate recycling programs and/or safe disposal options for materials such as e-waste and hazardous waste.
